

Hot Water Pressure Washers **HVS Series**

HVS Series

The HVS Series offers many of the same durable features as the HDS Series and is the most affordable option in Mi-T-M's 120 volt skid line.

GASOLINE/DIESEL - BELT DRIVE

STATIONARY - SKID-MOUNT

High quality fuel filter/water separator ensures clean fuel supply to the burner

2900 watt generator for efficient power to the burner and controls

Large polyethylene float tank prevents rusting

Performance-proven industrial gasoline engine or Kubota diesel engine with electric start (battery NOT included)

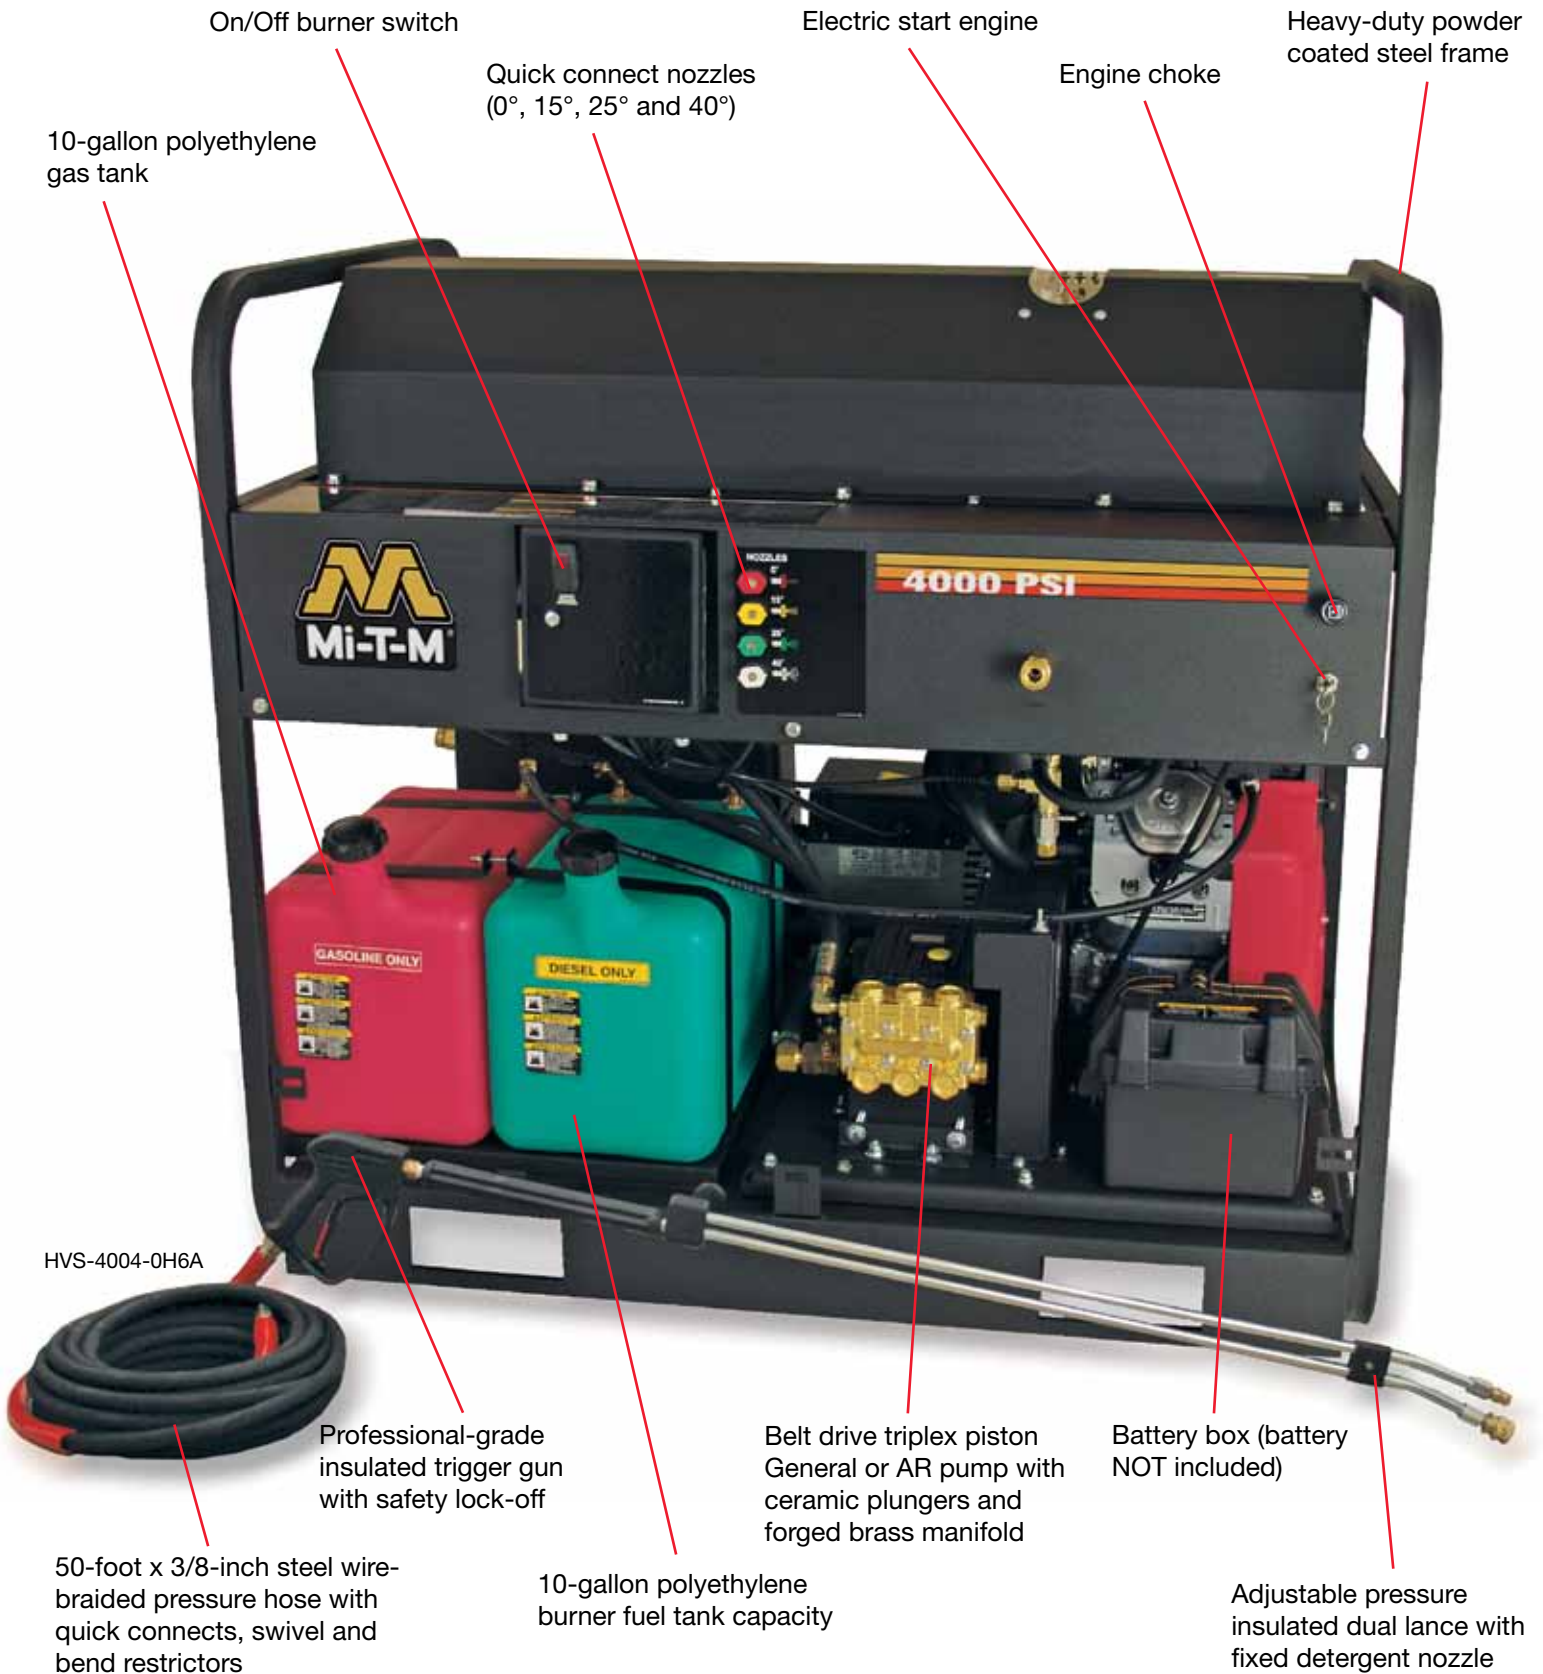

Additional Features:

- ✓ 80-mesh, high-volume, stainless-steel screen inlet water strainer
- ✓ Pressure relief valve protects against excessive system pressure
- ✓ Factory preset unloader
- ✓ 1/2-inch schedule 80-coil with stainless-steel wrap heat exchanger
- ✓ Heavy-duty dual cogged belt drive system
- ✓ No. 1 or No. 2 diesel or kerosene fired burner (Bio-fuel not approved at this time)
- ✓ Temperature rise 150°F/66°C above ambient
- ✓ 471,800 BTU's per hour rating (513,800 BTU for HVS-3008 models)

HVS-3506-0H6G shown with optional wheel kit (AW-5740-0000)

Mi-T-M offers a full line of products including cold water pressure washers, air compressors, generators, wet/dry vacuums, jobsite boxes, metal cutting saws and water treatment systems.

HVS Specifications

Model No.	PSI	GPM	Displacement or HP/Engine	Gas Tank Cap.	Burner Fuel Tank Cap.	Burner Fuel Cons.	Dimensions (LxWxH)	Ship Wt.	Net Wt.

HX-0203

Removable painted front panel - Provides a protective panel and gives unit a more finished look

Stack adapter - Allows 8-inch flue pipe to be installed to boiler exhaust port

Gasket (for 50-0177) - Seals between 50-0177 stack adapter and boiler housing

Wheel kit - Allows unit to become portable

Three-way ball valve - Allows pressure washer to operated from garden hose/float tank or trailer supply tank by adjusting ball valve lever

High pressure detergent injector (with K7 unloader) - Supplies soap injection through the high pressure pump while spraying; pressure washer with actuated unloaders only

Steam combination 250°F (K7) - Increases outlet temperature to 250°F. Steam option for models equipped with K& flow actuated unloaders

Steam combination 250°F (K7) - Increases outlet temperature to 250°F. Steam option for models equipped with K& flow actuated unloaders

Steam combination 250°F - Increases outlet temperature to 250°F

Trapping unloader - High pressure water is trapped in outlet hose when trigger gun is released

Dual gun - Two guns may be sprayed at the same time; flow is divided between the two guns while each operator maintains equal system pressure

Adjustable temperature control - Operator is able to adjust outlet water temperature between 96°-250°F

Hour meter - Displays number of hours unit has been in operation

Four (4) point lifting capability - Allows unit to be lifted by a crane

Detergent injector - Supplies soap injection through the high pressure pump while spraying; pressure washers with pressure trapping unloader

All stainless steel frame - Converts powder coated paint frame to stainless steel material; excludes diesel

Kohler engine upgrade - Higher performance 725cc Kohler engine

* To order these options you must also order HX-0143, HX-0200 or HX-0201 (N/A on 4000-PSI models which already come equipped with trapping unloader)
