

Built for longevity and reliability, these industrial belt-driven pressure washers are the foundation of Mi-T-M.

CW Premium Series  
Pressure Washers

### Frame Design:

- 12. Pneumatic mag tires with tubes for longer life
- 13. Solid steel threaded axle
- 14. 1/4 inch powder coated steel base plate to reduce vibration
- 15. Dual rubber isolators to absorb vibration
- 16. Convenient hose wrap
- 17. Powder coated 1 1/4 inch steel tube handles to resist breakage
- 18. Gun/wand holder for convenient storage
- 19. Two-piece belt guard with 1/4-turn release for quick access to belts
- 20. Heavy-duty dual cogged belt drive system to prevent slippage

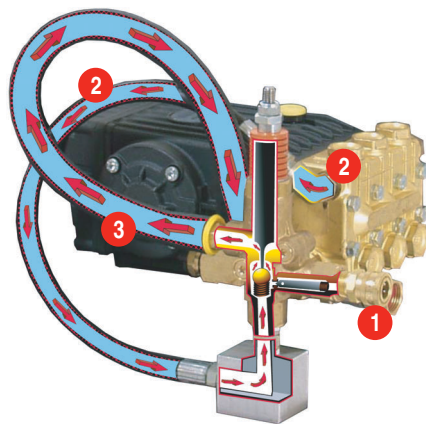

CW-3004-4MGH

Two (2) year limited parts and labor warranty

Five (5) year limited warranty on pump

### By-Pass System:

- Large 3/4 inch I.D. by-pass hose for increased water volume
- Allows more water into system to prevent heat build-up
- Increases by-pass time over direct mount unloader valves
- Allows for easy testing of unloaders
- External mounted unloader for reduced vibration/pulsation of internal parts

1. Water enters inlet of unit.
2. Water travels through the pump to the unloader via a wire braided high pressure hose.
3. When trigger gun is released the water travels back to the inlet supply via a 3/4 inch by-pass hose, creating the by-pass loop.
